

HORNCastle PRIMARY SCHOOL

Subject Progression – Language (French)

Purpose and Aims	<p>A high-quality languages education should foster pupil's curiosity and deepen their understanding of the world. The teaching should enable pupils to express their ideas and thoughts in another language and to understand and respond to its speakers, both in speech and in writing. It should also provide opportunities for them to communicate for practical purposes and learn new ways of thinking. Language teaching should provide the foundation for learning further languages, equipping pupils to study and work in other countries. The aim is for children to speak with increased confidence and fluency as their understanding of spoken and written language develops and write for different purposes and audiences using the appropriate grammatical structures taught. The main focus is on practical communication.</p> <p>We follow the CGP scheme of work, "Salut!". This scheme of work ensures that all KS2 objectives are covered termly in each unit.</p>
